

- Kira is the most energetic teacher I have had in my 3 years at LSE (including one year at Sciences Po on exchange). She engages me even on issues which I had not intended to study deeply, pushing me to gain a very comprehensive knowledge base on EU politics.
- The handouts are very helpful, moreover Kira's general demeanor and attitude she brings to the table fills the room with smiles and sunshine in a way that ensures I always attend the Friday afternoon seminar.

- - Caring nature and style of teaching
 - Ability to explain concept topics
 - Ability to give in depth feedback
 - I just love her so much, she's the best TA I've ever had

- I find the worksheet to be extremely useful, everything from "this week at lse" to the exercises is so useful! Class debates are amazing and I love how Kira encourages us to be critical and share our opinion.
- Always go the extra mile, offers academic advice (and recommendations), makes classes interesting.

Also, in a class with vastly different knowledge of the topic, it is impressive how inclusive class participation is. As a European, I felt bad for some American students (who understandably were less familiar with the EU), but this term they talk as much as everyone else!

- Kira's Feedback is amazing. It was always very detailed and helpful.
- Best teacher I have had.
